River Publishers

Topics in Dynamics of Civil Structures, Volume 4

Proceedings of the 31st IMAC, A Conference on Structural Dynamics, 2013

Editors:

Fikret Necati Catbas, The Society for Experimental Mechanics, Bethel, USA

Shamim Pakzad, The Society for Experimental Mechanics, Bethel, USA

Vitomir Racic, The Society for Experimental Mechanics, Bethel, USA

Aleksandar Pavic, The Society for Experimental Mechanics, Bethel, USA

Paul Reynolds, The Society for Experimental Mechanics, Bethel, USA

Topics in Dynamics of Civil Structures, Volume 4: Proceedings of the 31st IMAC, A Conference and Exposition on Structural Dynamics, 2013, the fourth volume of seven from the Conference, brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Structural Dynamics, including papers on:

- Modal Parameter Identification for Civil Structures
- Vibration Control of Civil Structures
- Cable Dynamics
- Damage Detection Models for Civil Structures
- Data-Driven Health Monitoring of Structures & Infrastructure
- Experimental Techniques for Civil Structures
- Human-induced Vibrations of Civil Structures
- Structural Modeling for Civil Structures
