River Publishers

MEMS and Nanotechnology, Volume 5

Proceedings of the 2013 Annual Conference on Experimental and Applied Mechanics

Editors:

Gordon Shaw III, The Society for Experimental Mechanics, Bethel, USA

Brton C. Prorok, The Society for Experimental Mechanics, Bethel, USA

LaVern Starman, The Society for Experimental Mechanics, Bethel, USA

Cosme Furlong, The Society for Experimental Mechanics, Bethel, USA

MEMS and Nanotechnology, Volume 5: Proceedings of the 2013 Annual Conference on Experimental and Applied Mechanics, the fifth volume of eight from the Conference, brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on a wide range of areas, including:

- Microelectronics Packaging
- Single Atom/Molecule Mechanical Testing
- MEMS Devices & Fabrication
- In-Situ Mechanical Testing
- Nanoindentation
- Experimental Analysis of Low-Dimensional Materials for Nanotechnology
