River Publishers

Model Validation and Uncertainty Quantification, Volume 3

Proceedings of the 39th IMAC, A Conference and Exposition on Structural Dynamics 2021

Editor: Zhu Mao, The Society for Experimental Mechanics, Bethel, USA

Model Validation and Uncertainty Quantification, Volume 3: Proceedings of the 39th IMAC, A Conference and Exposition on Structural Dynamics, 2021, the third volume of nine from the Conference brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Model Validation and Uncertainty Quantification, including papers on:

- Inverse Problems and Uncertainty Quantification
- Controlling Uncertainty
- Validation of Models for Operating Environments
- Model Validation & Uncertainty Quantification: Decision Making
- Uncertainty Quantification in Structural Dynamics
- Uncertainty in Early Stage Design
- Computational and Uncertainty Quantification Tools
