River Publishers

Sensors & Instrumentation and Aircraft/Aerospace Testing Techniques Vol. 8

Proceedings of the 42nd IMAC, A Conference and Exposition on Structural Dynamics 2024

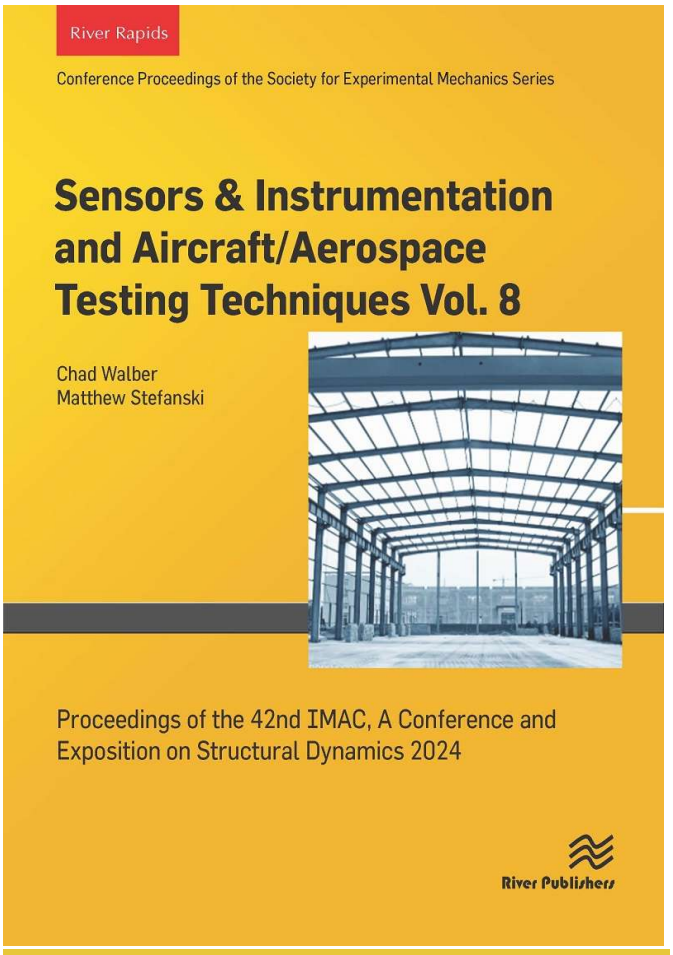
Editors:

Chad Walber, The Society for Experimental Mechanics, Bethel, USA

Matthew Stefanski, The Society for Experimental Mechanics, Bethel, USA

Sensors & Instrumentation and Aircraft/Aerospace Testing Techniques, Volume 8: Proceedings of the 42nd IMAC, A Conference and Exposition on Structural Dynamics, 2024, the eighth volume of ten from the Conference brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Shock & Vibration, Aircraft/Aerospace Testing Techniques including papers on:

- Alternative Sensing & Acquisition
- Active Controls
- Instrumentation



River Publishers Series in Conference Proceedings of the Society for Experimental Mechanics Series
