River Publishers

Topics in Model Validation and Uncertainty Quantification, Volume 5

Proceedings of the 31st IMAC, A Conference on Structural Dynamics, 2013

Editors:

Todd Simmermacher, The Society for Experimental Mechanics, Bethel, USA

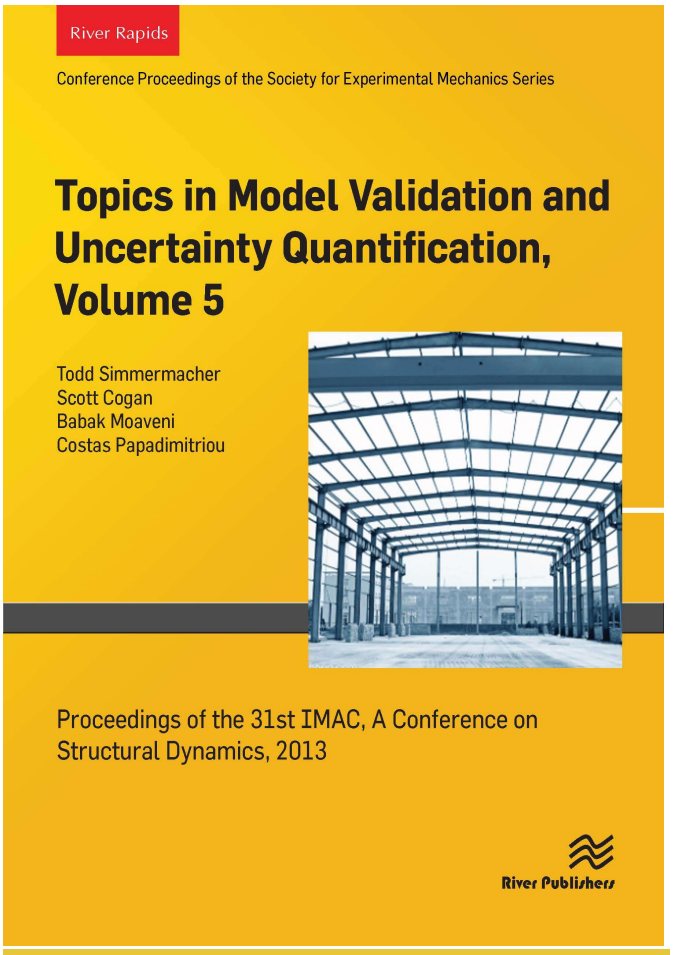

Scott Cogan, The Society for Experimental Mechanics, Bethel, USA

Babak Moaveni, The Society for Experimental Mechanics, Bethel, USA

Costas Papadimitriou, The Society for Experimental Mechanics, Bethel, USA

Topics in Model Validation and Uncertainty Quantification, Volume : Proceedings of the 31st IMAC, A Conference and Exposition on Structural Dynamics, 2013, the fifth volume of seven from the Conference, brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Structural Dynamics, including papers on:

- Uncertainty Quantification & Propagation in Structural Dynamics
- Robustness to Lack of Knowledge in Design
- Model Validation

River Publishers Series in Conference Proceedings of the Society for Experimental Mechanics Series
