Water Poverty
The Next "OIL" Crisis

Author: Shirley J. Hansen

A water crisis on our immediate horizon is destined to hurt, even kill, millions of children, and the window of opportunity to do something about it is rapidly closing. There is, however, a glimmer of hope that could turn into rays of sunshine. Water is a commodity, and we have just come through some painful times dealing with the shortage of another commodity—energy. For those who lived through the "energy crisis," this book offers a brief trip down memory lane.
